

# I Wish

Me dedico esta canción ☹:

<http://www.youtube.com/watch?v=izYI09VtjUs>

I wish I could make time go back again,

I wish I didn't regret so many things,

I life was like a video game,

To know its path and what it means.

To say everything I didn't say,

To be quiet when I spoke,

To be with you during all the day,

You my leaf, and I your oak.

I wish I wouldn't be so shy,

Because I suffer for it,

Because I don't like to cry,

Every time after we meet.

I wish you could now read this,  
Even if you already made your choice,  
**I wish you know how much I miss**  
**Your sweet scent and beautiful voice**

Better to learn from your mistakes,  
Than regret all you have done bad,  
Use wisdom in every choice you make,  
And thank God for everything you have.
